EXPERIENCE

OCTOBER 2019 – PRESENT

SENIOR PRODUCT DESIGNER, THOUGHTWORKS

Client: Large Grocery Retailer

- Designed powerful web-based planning tools used by hundreds of users across merchandising
- Lead and collaborated with a three-person design team

Client: Large Healthcare Organization

- Conducted regular user research sessions with clinicians to uncover pains and test prototypes
- Facilitated a series of inception workshops to align on priorities with numerous stakeholders
- Partnered with clinical experts to design a COVID-19 severity classification tool for doctors
- Synthesized some best practices when designing for doctors based on our research and presented them back to Thoughtworks design leadership

Client: Political Data Startup

- Led client product team through user research sessions to understand the customers' needs
- Collaborated with client executive team to prioritize high impact features
- Iterated through MVP prototypes while testing ideas weekly with users
- Designed the end-to-end experience for a customer portal and sliced features into user stories to create the backlog
- Worked with developers to build and launch version one in eight weeks

JUNE 2017 – PRESENT

HEAD OF PRODUCT & DESIGN, WEATHEROPTICS

Designed customer web portal and API used by thousands of business users to access AI-powered weather forecasts

SUMMER 2018

SUPPLY CHAIN - DESIGN INTERN, SPACE X

Utilized user research, journey mapping, wireframing, prototyping and testing to redesign two internal processes resulting in projected annual savings of \$35,000
